Cc:

ROBERTO PERRIS  
Director & Professor of Anatomy and Cell Biology  
COMT - Centre for Molecular and Translational Oncology  
UNIVERSITY OF PARMA  
Via G.P. Usberti 11/A  
PARMA 43100, Italy

Dear Prof. Gino Ferretti,

TTP LabTech certifies that Prof. Roberto Perris is the winner of the Acumen competition where competitors were invited to submit project proposals for how they would utilise an **Acumen eX3** for a conducting an innovative study (. As the winning entry, Prof. Perris will receive a free installation of the instrument in his lab, at COMT - Centre for Molecular and Translational Oncology for a 12 month period, along with free training on the instrument and full technical support free of charge, to pursue his proposed scientific project. The 12 month period will commence when installation and user training have been completed and is anticipated to end by December 2012.

At the end of the 12 month period, TTP LabTech will offer to Prof. Perris the option to enter into negotiation with TTP LabTech for a possible acquisition of the instrument. If no further agreements are reached, the instrument will be returned to TTP LabTech. All shipment costs will be paid for by TTP LabTech.

All scientific and technical discoveries arising from Prof. Perris utilization of the Acumen eX3 instrument placement will remain the property of COMT. However, TTP LabTech preserves the rights to use any published data generated using the instrument for its marketing purposes. TTP LabTech also requests that before the end of the above mentioned 12 month period COMT publishes data generated using the instrument in one of the following formats: a poster or oral communication at an international conference or workshop, a webinar, or a paper in a peer-reviewed journal (as a submitted manuscript). If no such publication is generated during the allocated time, TTP LabTech will reserve the right to levy a charge to cover the lease of the instrument.

Best Regards,

Paul Wylie  
Acumen Product Manager
